

Strengthening Child Care Services

ENROLLMENT-BASED PAYMENT IS BETTER FOR PROVIDERS & FAMILIES

ENROLLMENT-BASED PAYMENT...

✓ INCREASES WORKFORCE PARTICIPATION

Working parents rely on dependable and predictable child care to secure and keep their employment.

✓ INCREASES PREDICTABILITY & STABILITY

Allows for child care centers to sustainably keep their doors open.

Increases supply by reducing attrition and attracting new providers to enroll children with subsidies.

Strengthens providers' applications for loans or grants to scale services and facilities and meet growing demand for child care.

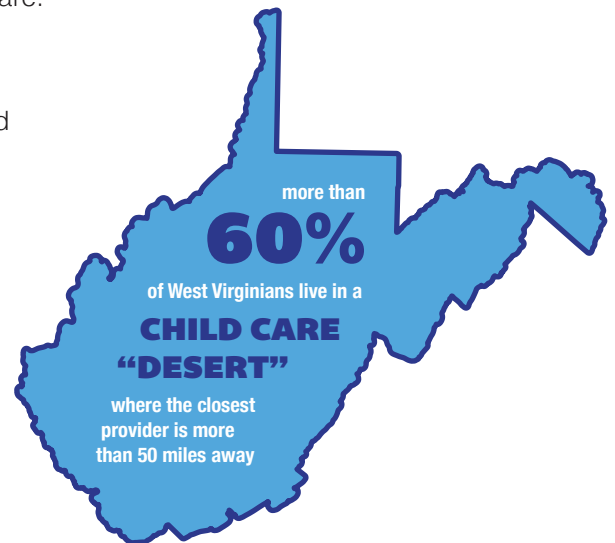

✓ IMPROVES QUALITY

Higher employee retention and well-being through increased compensation are possible through more predictable and stable financials.

Enables hiring for substitutes, coaches, nutritionists, case managers, or mental health and provider coverage when staff members receive professional development or obtain credentials through continued education.

✓ REDUCES CHILD CARE "DESERTS"

Increases in access to child care services provided by better trained and consistent caregivers.

ATTENDANCE-BASED PAYMENTS DON'T MAKE SENSE FOR CHILD CARE CENTERS...

"WE CAN'T CALL OUR ELECTRIC COMPANY AND ASK FOR A DISCOUNT BECAUSE LITTLE JOHNNY WENT TO THE DOCTOR FOR TWO HOURS."

PATRICK HOGAN, CHILD CARE PROVIDER
