

Partners in Community Outreach Newsletter

Helping WV children grow up healthy, strong, and ready to learn.

Star Home Visitor

Cabell County Family Support Specialist Jenny Browning has been home visiting for over 6 years. In the words of a recent HFA graduate, "When things were tough, I didn't know where to turn. There was Jenny." Great work, Jenny!

Happy Birthday

To Christina Cline, Diane Hughes, Samantha McCoy, Aryn Carr, Laurie McKeown and Nonie Roberts this quarter! We hope it's as wonderful as you are.

Partners in Community Outreach is a coalition of home visiting programs throughout West Virginia. Our mission is to support and build the capacity and influence of evidence-based In-Home Family Education, which in turn improves the health and well-being of our young children and their families.

Partner Updates

Training and Technical Assistance Stipends - PiCO is able to offer new stipends of up to \$1,000 over the next PY! These stipends should be used for activities related to staff training and meet needs beyond what your grant covers. *(Pictured above: The Clay-Braxton PAT Team at their Strategic Planning Retreat, funded in part by the PiCO Training and TA Stipend!)*

The New Supervisors Toolkit and Manual is complete, containing the foundational information & guidance needed to succeed, along with links and resources. It is a working document, meaning it will live online so it can easily be updated as we progress - if you notice something is missing, please email samantha@teamwv.org to notify! *Scan the QR code above to view.*

PiCO has made progress on several objectives, such as:
Mentorship & reflective - this is underway, if you have not been assigned a mentor and would like one, or would like to receive reflective supervision, please notify the coordinator.
Advocacy - committees are in the midst of planning and preparing for fortified advocacy efforts in the 2025, with the newly elected.
Grant support - two sites have received support grant writing
Tech support - 7 sites are receiving new tablets, and we held a virtual workgroup for people to share and ask questions about tech, marketing tools, and going paperless.

10/4 - 10 am, PiCO Office Hours

11/1 - 10 am, Advocacy 101 Virtual Training with Jim McKay and Angie Davis

12/11 - Quarterly PiCO Meeting in Weston
